

A Full-Blown Stock Class Race Boat

- Catamaran Hull – North American Stock Class Racer
- Hull built with high modulus carbon Innegra and E-glass laminates
- Powerplant: Twin Mercury Racing 300R
- Interior: 2 person | Driver and Throttle
- Length: 32' 6"
- Beam: 10' 2"
- Rigged Dry Weight: 4,750 Lbs.
- Fuel Capacity: 120 Gallons +/-

PHOENIX 32 XR SPOTLIGHT

A full-blown, no-compromises offshore race boat, the Phoenix 32XR is designed and built for one purpose: to dominate the Stock class. With a unique running surface evolved from SOS Venezuela, which won the World Championships in 2014, the 32XR delivers not just acceleration and speed but also exceptional handling in turns. In fact, it was the ability of SOS Venezuela to carry more speed through the turns than any other boat on the course that won the championship.

The 32XR is also engineered from the ground up to be the safest Stock-class outboard catamaran anywhere and complies with all Union Internationale Motonautique (UIM) safety guidelines. Driver and throttleman are protected by a full roll cage, a full canopy with 3/4" flat polycarbonate windshields, and the entire hull is made with high modulus carbon Innegra and E-glass laminates capable of withstanding 20,000 Newtons of impact force.

The Phoenix 32XR is available either as a turn-key, race-ready boat rigged with Mercury Racing 300Rs, state-of-the-art controls and electronics, and sitting on a custom trailer, or as a finished hull, ready for engines, steering, electronics and trailer.

- Phoenix Variable Speed running surface
- Dual - high-flow hull steps
- Engineered laminate construction
- Handcrafted with Pro-set epoxy coring
- Diamond safety barrier for passenger safety/protection
- Fully infused hull, deck, and bulkheads
- Integrated transom knee supports
- Hand-cut core to ensure the tightest fit and precise tolerances
- Hull and deck bonded and taped with pro-set laminating epoxy
- Engine stringer and support systems
- Phoenix manual adjustable engine bracket built by Latham Marine
- 3" Aircraft fuel fills, fuel senders, pickups, and vents
- Custom race seats
- Stainless steel lifting eyes in bow and stern
- Exclusive Phoenix high gloss white gel coat
