- Race Bottom, Poker Run Cockpit
- Length: 34'
- Beam: 10' 2"
- Rigged Dry Weight: 4,900 Lbs.
- Fuel Capacity: 120 Gallons +/-

PHOENIX 34 XPR SPOTLIGHT

The Phoenix 34XPR combines the championship-winning bottom of our 32XR race boat with an open-cockpit poker run configuration to yield a fast, efficient, responsive pleasure boat capable of a comfortable 80 mph cruise. The entire hull is made with high modulus carbon Innegra and E-glass laminates. Her wide-body design creates massive lift for quick acceleration and a soft ride, while her Variable Speed Running Surface allows her to lean into turns like no other boat in her class. Additionally, the Variable Speed Running Surface eliminates the need for the tunnel to pack and blow out air that causes porpoising.

Protected by a full wraparound polycarbonate windshield, the cockpit features top-shelf cool-touch upholstery, flooring and appointments; plenty of open and dry storage; and a choice of five, six, or seven seats. Abundant storage lockers accommodate fenders, lines and gear, while ergonomic steps on the aft wing lead to an integrated swim platform with pop-out ladder. Able to easily handle the new Mercury Racing 500Rs, the 34XPR also delivers thrilling performance with 450Rs or 300Rs.

- Phoenix Variable Speed running surface
- Wide-body 63-inch tunnel
- Dual - high-flow hull steps
- Engineered laminate construction
- Handcrafted with Pro-set epoxy
- 1" thick engineered structural coring
- Diamond safety barrier for passenger safety/protection
- Fully infused hull, deck, and bulkheads
- Integrated transom knee supports
- Hand-cut core to ensure the tightest fit and precise tolerances
